REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not provide for, nor suggests providing for a Network Address Translation scheme for RTP and RTSP packets which creates all the NAT table entries concurrently in response to receiving a first RTP packet. The prior art does not suggest that the first and second NAT table entries are for port numbers which are different but are related in a manner such as the relationship between RTP and RTSP packets. The protocol creates an RTP session on port X in the direction of a client to a server and an RTSP session on port X+1 in the direction of a server to a client. The prior art does not suggest concurrently creating both these NAT table entries for both port X and X+1 in response to receiving the first RTP session packet. For these reasons, in conjunction with the other limitations of the independent claims, renders this case in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph E. Avellino whose telephone number is (571) 272-3905. The examiner can normally be reached on Monday-Friday 7:00-4:00.
